EXPERIENCE

Flutter Developer - Project Based (Remote)

TechX - PT Sinergi Selaras Bersama

📅 01/2021 - Present   📍 Remote

Delivered 7+ high-impact Flutter apps end-to-end at TechX, leading major improvements in code quality, performance, architecture, and CI/CD over 5+ years.

Fazza (Sep 2024 – Present) – Flutter Developer
- Developed product features and enhancements for the Fazza marketplace app.
- Improved UI performance and optimized API consumption.

Automotop (Feb 2023 – Aug 2024) – Flutter Developer
- Built the entire mobile app from scratch and shipped to production.
- Integrated Sentry for advanced crash monitoring and video error logs.
- Improved error diagnosis speed significantly compared to Crashlytics.

BebasInvestasi (May 2022 – Jul 2024) – Lead Flutter Developer
- Developed a social investment app from concept to App Store & Play Store release.
- Led a team of 3 developers; enforced Flutter linter & Dart code metrics.
- Built a CI/CD pipeline (CodeMagic) → automated builds to Firebase.
- Reduced deployment time from hours to minutes.

Nubie Learner & Instructor (Jan 2022 – Mar 2023) – Flutter Developer
- Implemented onboarding, maps, and instructor location features with Google Maps API.
- Built robust UI and state management for both apps.

Syarify (Feb 2022 - May 2022) – Flutter Developer
- Built scheduling, Quran reading, and Islamic content features

BisaInvest (Jun 2021 - Jan 2022) – Flutter Developer
- Implemented investment-related components and UI flows.

Maqmur (Jan 2021 - May 2021) – Flutter Developer
- Built Digital Quran with streaming & selective audio download.
- Improved audio sync logic for a smoother playback experience.
- Implemented advanced local notifications with fully customized schedules.

SUMMARY

Flutter developer with 5+ years of experience in clean architecture, high-performance apps, and smooth UI/UX. Currently at TechX and open to remote opportunities.
